

A Few "Becauses"

Why we ask for and expect your grocery trade.

BECAUSE as far as it is possible to determine our stock takes in all the good kinds, and leaves the others out.

BECAUSE if you are particular about eatables, our store will appeal to you.

BECAUSE we play the game of business fair and square. We make right any mistakes that we may make as soon as we hear of them.

BECAUSE we try awfully hard to "get there on time." We appreciate the inconvenience of waiting for goods to be delivered.

BECAUSE in spite of all these advantages your dollar is as large here as anywhere, often larger.

Try and prove.

New Form of Entertainment for the Editors

The members of the Santa Clara County Editorial Association are used to having pretty good times now and then when they get together for their business meetings, but now comes Walter A. Clark and the Altos Land Company of Los Altos, with a proposition that will set a new pace for towns that may wish to avail themselves of the publicity that thirteen well-fed editors are able to give.

On June 6, according to present arrangements, Brother Clark of the Los Altos Star, the baby paper in the association, will have a Peninsular company's special car at the Market street depot, San Jose, waiting for visiting editors and their companions.

There will be a speedy run from San Jose to Los Altos, Palo Alto and Stanford University; and at noon it is expected to have the special drawn up in front of Nippon Mura, a very popular summer resort in the Los Gatos foothills. Here the party will be entertained at luncheon. Just what the program for this part of the affair is to be cannot at this time be stated, but there is assurance that it will be a little out of the ordinary.

It is understood that other towns on the Peninsular lines will be visited in the afternoon—but it is too early as yet to make all the details public. It is enough to say that the affair will be entirely out of the ordinary, thanks to the inventive nature of the good natured Walter A. Clark. It will be worth while and every editor in the county will be there fully equipped for the complete enjoyment of all the entertainment that is provided.—Palo Alto Citizen.

Geel ! ! ! ! !

Memorial Day at Los Gatos

Most of the old soldiers of Campbell are affiliated with the E. O. C. Grd Post, No. 82, Grand Army of the Republic, at Los Gatos and will assist in the ceremonies there next Monday. The usual program has been arranged, which will include the decoration of soldiers' and sailors' graves in the cemeteries in the forenoon, a meeting of the members of the Post, Corps and Camp in Odd Fellows Hall at 11 o'clock, marching to the Methodist church grounds at 1:30 o'clock, where the regular services of Memorial Day will be held, and then the Memorial address in the Methodist church by the Hon. T. E. Blanchard, of Santa Cruz, which will conclude the services of the day.

Union Memorial Services Next Sunday

At the Methodist church next Sunday morning at 11 o'clock the two congregations will hold a union Memorial service in honor of the departed soldiers. The members of the G. A. R. will be present as usual. The address will be given by Rev. Geo. E. Atkinson, on the subject, "The Relation between Grant and Lincoln." On previous occasions Mr. Atkinson has spoken on Grant and Lincoln and this address will complete the series.

A New Poultry Business

Mr. S. A. Black and family moved to town last Monday from San Jose, formerly from Iowa. They first moved into a cottage on South First street but later purchased the house of Mrs. Gerow, adjoining the railroad on Hopkins avenue, and removed to that place. Mr. Black is an experienced poultry dealer and will establish himself in business here buying and selling all kinds of poultry. With this end in view he has also purchased the triangular lot between the railroad, Foote avenue and Miracle's lumberyard.

Nothing Else Needed

Charles M. Shortridge for attorney general of California—well now, why not? Somebody has to be it! And Charles M. Shortridge already has a nice silk hat and everything.—Mountain View Leader.

Strange that Brother Smith failed to give all of Shortridge's points for the position. Charles has a red necktie, a resonant voice and a delusion that causes him to take himself seriously.—Gilroy Advocate.

Our Agents Make \$50.00 a Week

Selling new process water color portrait and gold frame. Costs 90 cents complete with glass, sells for \$1.98. Samples and instructions free. Young man in Ohio made \$22.00 in one day. We are the largest picture and frame house in the world. One general agent wanted in each county. Give us reference and we will extend you thirty days' credit with steady, honorable employment at a big income. Our business is established twenty-five years. We are not in the picture and frame trust. We want honorable, trustworthy representatives only. You need no capital to work for us. We teach you how to make a success. Address at once.

Local and Personal

C. B. Miracle was in San Francisco this week.

Jesse Hayes is home from Palo Alto for a few days.

Rev. J. F. Wilson spent Monday in San Francisco and Berkeley.

The Junior Class of the High School picnicked at Congress Springs Thursday.

BORN—To Mr. and Mrs. Fennimore, of the Los Gatos road, last Tuesday, a girl.

A baby girl arrived this week at the home of Mr. and Mrs. Enos Bohnett, at Aromas.

The W. C. T. U. will meet with Mrs. Righter on Wednesday, June 1st at 2:30 o'clock.

Miss Emma Beattie has been ill with the grip but is now able to attend to work again.

Mr. and Mrs. C. E. Hanger drove home Sunday evening from a short outing at Seabright.

Miss Edith Copeland, who has been teaching in Igerna for the past year, is at home for the summer vacation.

J. C. Lowry left this week for Santa Cruz where he possibly will build on lots which he owns at that place.

The grip got hold of Judge Farley and locked him up for several days last week. He is not out on his good behavior.

Miss May Farley is expected home Saturday after several weeks most delightfully spent with friends at Oakland.

Mr. Rice from Tennessee has purchased the Greene place on the San Jose-Los Gatos road. The family moved in last Saturday.

On Saturday Miss Olive Burnett returned to her home in San Francisco after spending two weeks with her cousin Mrs. Frank Duncan.

R. K. Thomas left Tuesday afternoon for the Northwest states on business trip of several weeks in the interests of the Geo. E. Hyde & Co.

A delightful surprise was perpetrated on Miss Beth Kennedy at her home last Tuesday evening by a crowd of her young friends, it being her birthday.

Miss Dela Kennison, who formerly attended the Campbell High School, was in town this week as a guest of Mr. J. D. Blaine. She left Tuesday for Madrid, Iowa.

The Marshman home was the scene of a merry gathering of young people Friday evening. The party was given in honor of the Hooks, who are soon to leave for Castroville.

We don't wish to misrepresent even a dead dog. The little animal of Mr. Genasci's was killed under the wheels of the delivery wagon, instead of poisoned as was reported last week.

J. C. Lowry has sold his 20 acre place on New Jersey avenue and purchased the Mrs. Hurbert place on Central avenue. The house is occupied by his son W. B. Lowry and family.

Mrs. A. J. Vogt, who has been ill for some time, was taken to the O'Connor Sanitarium on Thursday last week, where she suffered a very difficult operation. She is improving rapidly.

The Freshman Class of the High School surprised Ruth Hayes at her home on Friday evening. After indulging in games appropriate to Freshmen they were served lemon ice and nabiscos.

On Friday Mrs. Hill and Miss Marshman gave a dinner in honor of Rev. Long, D. D., and wife of San Jose. Those invited to meet them were Rev. and Mrs. Marshman, Mrs. H. V. Matthews and Mrs. Chapin. It was a very enjoyable affair.

F. O. Putnam and family returned home Sunday after a week at Santa Cruz. Mr. Putnam represented the Sunnyvale Lodge at the Grand Lodge of Knights of Pythias in session at Santa Cruz last week. He was appointed as District Deputy Grand Chancellor.

Rev. W. C. Evans, D. D., occupied the pulpit at the Methodist church last Sunday morning and preached a very strong sermon on the words "The Face of Jesus Christ," taken from the last life of 2 Corinthians 4:6. Dr. Evans was formerly an artist in oil, which experience greatly aids him in his wonderful word pictures.

Lion Fondles A Child

In Pittsburgh a savage lion fondled the hand that a child thrust into his cage. Danger to a child is sometimes great when least regarded. Often it comes through Colds, Croup, and Whooping Cough. They slay thousands that Dr. King's New Discovery could have saved. "A few doses cured our baby of a very bad case of Croup," writes Mrs. George B. Davis, of Flat Rock, N. C. "We always give it to him when he takes cold. It's a wonderful medicine for babies." Best for Coughs, Colds, LaGrippe, Asthma, Hemorrhages, Weak Lungs. 50c. \$1.00. Trial bottle free. Guaranteed by all Druggists.

Ho! For Mt. Hamilton!

The great Lick Observatory is having an unusual large number of visitors this spring, and Campbell is furnishing her number.

The following party of young people will leave here Saturday morning and return Monday: Eastor Carter, Nicholas Dunphy, Geo. Righter, Roy Archibald, Cynthia Bersinger, Mildred Duncan, Hazel and Leona Brown. They will go with teams and will be accompanied by Mrs. Dunphy and Mrs. Brown.

Another crowd will leave this afternoon and return Sunday. Mr. Lanz with furnish the conveyance and go as driver. They are, Carl Scholz, Warren Macy, Geo. Jaderquist, Roy Thompson, Mary Clark, Abbie Gilbert, Merna Sawyer, Vaudine Putnam, Dollie Blinkensop, Muriel Sawyer, and Theresa Scholz.

The regular Senior Class annual trip to Mt. Hamilton was made last week. The party, chaperoned by Miss Caton, left Friday afternoon and reached home Sunday night. They were as follows: Nic Dunphy, Will Ross, Herbert Scholz, Don Currier, Ed. Bucknall, Phoebe Mitchell, Marie Sawyer, Bessie Palmer, Mamie Burleigh.

A New Soda Fountain—Free Samples

The indications are for a hot summer. At last the Edlemans are preparing to hand out refreshments in greater quantity and superior quality. Besides installing a new motor, mentioned last week, they are now putting in an elegant new Walrus soda water fountain. The outfit is mounted on an Italian marble base, has onyx handles and a colored glass umbrella top under which are electric lights. Besides being an object of beauty the new apparatus has other advantages, one being that very little ice is required. Along with the new fountain, new shelves and other improvements are being made which add much to the appearance of the place.

A grand "opening day" is being planned, and some hot afternoon in the near future when the mercury stands high in the thermometer all thirsty Campbellites will be invited to come out of their shady corners and visit this popular confectionery where they will be treated to a FREE sample of soda water from the new fountain.

Grammar School Pupils Visit Stanford

Last Saturday the pupils of the sixth, seventh and eighth grades enjoyed an unusual treat. Professor Graves had a special car provided and at 8:30 o'clock, with well-filled lunch baskets, the jolly crowd left Campbell for Stanford University. Here they visited many places of interest, such as the library, zoological rooms, Angel of Grief, Lake Laguna where they ate lunch on the banks. Thence they returned to the University and got specimens of mosaic from the ruined chapel, and spent some two and one half hours in the museum.

From here the company divided into two parties, one going to the gymnasium and the other to Mrs. Stanford's home. The next was to the fraternity homes where a game between members of the alumni and students were witnessed. The party started for home at 5:30, after a most profitable day.

Besides the main company on the car, Mr. and Mrs. Ainsley went with their auto and took as guests of Gordon and Dorothy, Louie Genasci and Leonard Smith.

New Officers Elected

The Farmers Mutual Telephone Co. held their annual stockholders' meeting last Friday, at which time the following directors were re-elected: F. M. Righter, B. O. Curry and J. J. Cornell. The company accepted the contract with the P. T. & T. Co.

On Wednesday of this week the board of directors met for re-organization of officers, which resulted in the election of F. M. Righter, president; J. E. Weisendanger, vice-president; A. C. Keesling, secretary and manager; and B. O. Curry, treasurer.

FOR SALE—A good town lot, 50x140 feet, 12 prune trees. Enquire at Press office.

FOR RENT CHEAP—A 4-room cottage. Good basement, small barn, hex house. Enquire of C. W. Gilman.

A Man Wants To Die

Only when a lazy liver and sluggish bowels cause frightful despondency. But Dr. King's New Life Pills expel poisons from the system; bring hope and courage; cure all Liver, Stomach and Kidney troubles; impart health and vigor to the weak, nervous and ailing. 25c at all Druggists.

Japanese Labor Union

The Japanese of Placer County have formed a labor union, taking in nearly all of that race in the county. They have fixed the minimum wage at \$2 for a nine-hour day, the management to be with the Japanese bosses, and if the employer discharges a man the whole gang will quit.—Town and County Journal.

Runaway

For the second time recently the driving horse of E. R. Kennedy has indulged in a lively run. On last Monday morning Mr. Kennedy had just hitched up and was leading the horse out of the corral when the noise from a nearby engine so frightened the animal that it jumped and succeeded in getting away. The first obstacle which the horse met with in her mad dash for the street was a fig tree of about four inches in diameter, which was cut clean off. When making the turn into the road a wheel was taken off by a post. The horse then came up Campbell avenue at a lively pace and turned south at Sharp's hay barn. Here the remains of the buggy was deposited while the thoroughly frightened horse increased her speed on south and through the orchards and finally brought up at the home of T. L. Cook, several miles southwest of town. The horse was unhurt and Mr. Kennedy suffered only a severe strain of his purse for buggy repairs.

NEWS OF WEEK FROM ALL THE COAST STATES

Occurrences Along the Pacific Slope Presented in Com- pendious Array.

Passing Events Among Your Neigh- bors Briefly Told in Short, Newsy Paragraphs.

Redondo.—By a majority of 90 votes out of a total of 604 it was decided that saloon licenses should be issued during the coming year.

Oakland.—Every policeman in this city has been appointed a census enumerator and instructed to canvass all houses on his beat before the enumeration closes on June 1.

Newport, Or.—The gasoline steamer J. Marhofer, from San Francisco for Portland, Or., was burned at sea. The fire was due to gasoline escaping from a leaky pipe. All of the crew escaped, but the cook died later from exposure.

Oroville.—Regular passenger service over the Western Pacific will not be started before the 1st of July, according to information given out here. It had been announced that trains would start June 5, but frequent washouts have made it necessary to put construction gangs back into the service.

Redding.—While Mrs. J. W. Woodrum, postmistress at Hooker, was chopping wood some one broke into the postoffice, took \$36 in money, opened some letters and escaped. She had locked the door when she went away to the brush to cut wood. Hooker is a small station between Cottonwood and Red Bluff.

Los Angeles.—A burglar entered the cloak room of a hotel here and stole the purses of 50 women who were guests at a dance. Money and valuables amounting to several thousand dollars were taken. The burglar emptied every purse and handbag in the room. He then jumped out of a window and escaped.

Oroville.—Reports reached this city a few days ago of a fierce battle between Greeks and Hindus on the Western Pacific at Big Bar. About 20 men took part in the fight and most of them were injured. One Hindu was so badly hurt that he probably will die. The weapons used were anything the participants could get hold of.

Sacramento.—Louis J. Wells, deputy constable and wealthy rancher of Perkins, died at a local hospital from the effects of a self-inflicted gunshot wound in the head. For a week Wells' case had been puzzling the doctors as he retained his senses, although the bullet passed completely through his brain and skull. No motive has been discovered for the deed.

San Francisco.—Maintaining that "jail breaking" is no crime, Charles Murray, through his attorneys, A. S. Newburgh and Carroll Cook, has made application for a writ of habeas corpus. Murray was sentenced to serve three years, following the expiration of his first sentence, for jail breaking from Folsom prison. The case will come before the court for argument within the next 60 days.

Oakland.—Frank Thomas, who is known to the police of many cities of the United States as "the boy bunko steerer," was sentenced to four years' imprisonment in San Quentin by Judge Brown for swindling an Oakland banker. Thomas has been for a number of years of his life living by his wits with shady transactions, yet he appears a boy and carefully cultivates this deception as an asset.

Sacramento.—Because he lost his passport Thomas Fox, the well-known Democratic politician, spent three days in Yokohama, Japan, in the hands of the police authorities of that city and was on the point of being consigned to jail as a political prisoner when he was luckily identified and rescued by Arnold D. Patterson of this city. When he was found to be without a passport the custom-house officials simply seized him.

San Francisco.—A decision of importance to the wool growers of California and the Pacific Coast was reached in Chicago at the meeting of the trans-continental freight bureau, when it was decided to reduce the rates on wool. The rate for wool in grease is reduced from \$1.10 to \$1 per 100 pounds and the rate on scoured wool is reduced from \$1.40 to \$1.30 per 100 pounds. The reduction in the wool rate is made to combat the water competition.

WORKMEN BUILDING BRIDGE HAVE RACE WITH SUMMER

Alaskan Ice on Which False Work of Structure is Built Melting Fast.

Cordova, Alaska.—The builders of the great \$1,000,000 cantilever bridge of the Copper River Railroad that will span Copper river diagonally between the Miles and Childs glaciers, are engaged in a race with the summer. The false work for the bridge was built on the six-foot ice of the river, and the steel is being put in place by men supported by the wooden scaffolding that rests upon the ice, and the ice may be swept out any day, and with it the false work. If the bridge is not completed before the false work is swept to sea the loss in extra labor involved will be \$150,000 beside the delay of operation of the railroad.

The bridge builders work 18 hours a day in the bright Alaska sunshine, and high speed is maintained by a bonus of \$100 offered to each man if the bridge is completed before the ice goes out.

Thought He Was Welcome to it.

San Francisco.—Ralph Parker explained to Police Judge Shortall that he had stolen a door mat from in front of an Eddy street residence because it had said "welcome" on it. "I thought it meant that anyone could have it who claimed it," said Parker to the court. "I was passing along in front of the house. I needed money. When I saw that mat with the word 'welcome' on it I concluded it would be no offense to take it and sell it." Judge Shortall sentenced the defendant to ten days in the county jail.

Cigar Bands Denied Entry.

New York.—A consignment of 100,000 cigar bands which has just reached New York from Germany is the latest "undesirable" to incur the displeasure of Collector Loeb. The labels are said to be cleverly executed copies of the bands on high-grade cigars, and their entry, Collector Loeb believes, would be a violation of the law protecting trademarks. The bands will be destroyed by the Government or exported at the consignees' expense.

Mine Disaster Due to Negligence.

Princeton, Ill.—The coroner's jury which began last November to investigate the cause of the Cherry mine disaster, which resulted in the death of 265 miners, has reached an agreement and 250 separate verdicts have been returned. The jury says the mining laws were broken with the knowledge and consent of the mine inspector.

Lightning Damages Oil Fields.

Sour Lake, Tex.—A severe electric storm, accompanied by rain and wind, did extensive damage to derricks and other oil field property in this vicinity Sunday. Lightning struck a steel tank, destroying its contents of 30,000 barrels of oil. This is the second storm in this vicinity within a week and the loss to oil interests is estimated at \$200,000.

Drought in China.

Amoy, China.—Conditions arising from continuous drought are serious. There has been no rain for four months, food supplies are running low and the crops are a failure. The city's water supply is failing. Robbery and violence in the district are increasing. Public prayers are being offered by the officials for rain.

Non-Union Miners Strike.

Webb City, Mo.—Seven hundred non-union miners employed at the Providence Electrical and White Dog zinc mines here are on strike because of the refusal of the company to increase the wages to figures which obtained before the decreased price of ore forced a 10 per cent reduction.

Shou'd Have Used a Bank.

Newark, N. J.—While Samuel Vogel and his wife of Newark, N. J., slept soundly burglars entered their home and stole \$10,000 worth of jewelry. The robbers also stole \$600 in cash. Vogel, who is a middle-aged shop keeper, had put the savings of a lifetime into diamonds.

Fire at Oroville.

Oroville.—A fire caused damage of \$6000 in the business section of Oroville. Judge Murphy, proprietor of the Johnson bar, was overcome by smoke in a room in the rear of his saloon and almost perished. When discovered he was in a helpless condition.

Women Oppose Japanese Invasion.

Palo Alto.—At the last meeting of the Palo Alto Woman's Club a motion was made that the women go on record as opposed to the Japanese invading the residence districts and the motion was carried unanimously.

U. C. Members Will Make War On Pests During Summer

Berkeley.—Much hard work is mapped out for this summer for faculty members and students of the college of agriculture of the University of California. Calls for assistance for fighting various fruit and stock pests have been received by professors, while among the students are several who will be engaged for the coming three months in similar tasks.

Most important of this vacation work is the campaign to be conducted by Professor W. B. Herms in Butte and Placer counties in driving out the mosquitoes, held responsible for malaria in that part of the State. Citizens of Oroville and the lower part of Placer county have subscribed heavily for the fight, organizing themselves into associations to assist Professor Herms. In

the immediate neighborhood of Oroville \$1400 will be spent, and it is expected that this sum will suffice to rid the district of its mosquitoes by October 1.

Ralph Benton, instructor in apiculture at the University, has accepted an invitation from the Supervisors of Tulare county to make war upon the black brood which has broken out with violence in the Tulare and Fresno county hives. Benton plans to deprive the infected hives of their queens until all the diseased bees have died. He expects his task to occupy him for at least a month.

H. N. Ord and R. W. Bettoli, advanced students in the college of agriculture, will take charge of the hop aphids in the hop fields of a prominent British Columbia firm.

Uncle Sam Turns Searchlight On the Lumber Trust

Washington.—The Department of Justice is investigating the subject of the price of lumber in the United States with a view to determining whether or not the so-called lumber trust may be reached by the Sherman anti-trust law on the ground that it is a combination in restraint of trade.

Every State, county and city, it is said, has its lumber organization, which the officials declare they believe sets the price of the article, as well as restricts the sale to particular individuals. The so-called combination, officials say, is one of the most formidable with which the department had to deal.

That the cost of lumber is an important consideration in the high cost of

living problem is the opinion of those who have been looking into the subject. It is higher than should be the case in their opinion. The point is made that the inquiry now under way is in line with the policy of the Department of Justice to investigate and prosecute combinations alleged to be in restraint of trade, that enter into the high cost of living, without waiting for the decision of the Supreme Court in the Standard Oil and American Tobacco cases. That such would be the attitude of the Government was announced by Attorney-General Wickensham just after the request made by the Supreme Court for the re-argument of these cases.

Fruit Must Be Up to Standard Before It Goes Out

Stockton.—The shipments of Tokay grapes from San Joaquin county hereafter must be under conditions that will meet all the requirements of the standardization test or up to the rules adopted by the majority of the grape growers in San Joaquin county. The vineyardists declare they will make every effort to see that only the best quality of grapes is sent out of the various shipping points, and they are sure that in the long run the growers will make better profit.

This year the pack will be closely inspected in all of the shipping sheds, and the firms who handle the crop will assist in the work of upholding the standard. There has been a lot of trouble over sending out poor grapes and fruit, which has been refused or sold at a loss in the East. Hereafter it is believed that this can be entirely eliminated by careful packing. The shipments will be given the most rigid inspection and few cars will leave this county that are not up to the standard.

Lime and Pure Water Necessary Parts of a Chicken's Diet

Stockton.—Chicken raisers and farmers heard Prof. M. E. Jaffa of the University of California lecture on poultry raising at the Chamber of Commerce rooms a few days ago. Jaffa declared adobe soil the very worst for chicken raising and added that those using such land must supply grit for their chickens in order to be successful. He also advised some form of lime. Alfalfa, he said, does not

contain enough lime for proper feed. Jaffa laid particular stress upon the necessity of supplying chickens with fresh water. "Any water unfit for human consumption is not good for fowls," he declared. "Any drinking fountain unfit for use as a cooking utensil because of filth is unfit for chickens. If these two rules are followed, disease will not exist among chickens."

Women's Too Showy Headgear Brings Rebellion in Church

New York.—Eighty male parishioners in a Brooklyn Episcopal church have organized a fight against the wearing of the immense hats affected by women at Sunday services. They have prepared a letter, printed copies of which have been circulated through the congregation and mailed to most of the offending women. The letter says in part: "We men are tired of peer-

ing through women's headgear in the hope of being able to catch an occasional glimpse of what is going on in the chancel. We are tired of straining our ears amid thickets of millinery in the effort to hear what the preacher is saying. Unless a reform comes soon a large number of men will withdraw from the church and refuse to contribute to its support."

Didn't Know President's Name But Was Accepted as Juror

Minot, N. D.—An American born citizen, a resident of North Dakota for the last seven years, was found a few days ago who did not know a single State or county official by name nor the name of the President of the United States.

In selecting a jury for the Noah

murder trial a farmer testified he knew nothing of the case. He admitted his ignorance as to the identity of any county or State officer and when asked for the name of the President of the United States replied: "I have heard the name, but have forgotten it." He was accepted on the jury.

SUNDAY SCHOOLS RECEIVE PRAISE OF PRESIDENT TAFT

Says All Creeds Agree on Necessity of Religious Education.

Washington.—President Taft addressed the World's Sunday School Association in convention here last week.

At Convention Hall, which was surrounded by a crowd fully as large as the 6000 within the big structure, he acknowledged the Bible school as a powerful force in the moral and educational uplift of the world.

"It is one of the two great instrumentalities," he said, "for making the world better, more moral and more religious. As the twig is bent so the tree is inclined, and youth is the time to inculcate religious ideas. No matter what views are taken of general education we all agree—Protestant, Catholic and Jew—that Sunday school education is necessary to secure moral uplift and religious spirit."

Second Flight Over Channel.

Dover, England.—For the second time within a year the English channel was crossed last Saturday by an aeroplane, and again the honor rests with France. Count Jacques de Lesseps, a grandson of the late Ferdinand de Lesseps, the celebrated French engineer, driving a monoplane of the same model as that with which Louis Bleriot conquered the straits July 25 last, duplicated his countryman's feat in a dense fog, starting at Calais and landing safely at Wynston Court farm. Fifty minutes were consumed in the journey. Bleriot's time was 33 minutes.

Made Insane By Loss of Savings.

Cheyenne, Wyo.—During the panic of 1907, Mike Hill, a coal miner, lost confidence in banks and drew out his savings, amounting to nearly \$1000, which he buried on the prairies near here. A few days ago he was adjudged insane in the county court and committed to the State Asylum. Hill forgot where he buried his money, and his frantic efforts to locate his "cache," coupled with brooding over his loss, resulted in the flight of his reason.

Water Plant But No Water.

Colusa.—Colusa has a municipal water plant, but the city can get no water except that furnished by private concerns. When the city's wells were drilled and the pumps installed it was found that the water did not stand high enough in the wells to permit of its being pumped and the pumps must be reset. They will be placed in a pit 10 feet deep. The change in plans will cost the city \$2500.

Emergency Rations Abolished.

Washington, D. C.—The hermetically sealed package stowed away in the corner of the army haversack labeled "emergency rations" and supposed to furnish sustenance for two or three days is to be dropped, if the Secretary of War approves of the recommendation of the infantry equipment board. In its place will be what is called the "haversack ration," composed of bacon and hardtack.

Violated His Parole.

Berkeley.—William Waldemar, alias William E. Waldman, who was on a five years' parole for a crime committed in San Francisco about six years ago, has broken his oath by the forging of checks, according to the police, and he is now in custody. Waldemar is alleged to have defrauded merchants of this city of various sums.

Favor Federal Highways.

Stockton.—The State Supervisors' Convention adjourned after adopting resolutions recommending the construction by the United States Government of two ocean to ocean highways. The next convention will be held in Napa, it having been decided to convene annually hereafter.

Miners Rush to New Field.

Weaverville.—Gold in large quantities has been discovered in the Jewel Creek canyon near Minersville, and all the ground in the immediate vicinity of the little stream has been staked out by prospectors. Some of the pans give as high as \$100.

University Bars Women.

St. Louis.—The St. Louis University has closed its doors upon timid women students because they would eliminate from law definitions words which are necessarily frank. Eight young women in this year's class will be permitted to finish their studies.

Joker Gets Two Bullets.

Fresno.—Apolinario Rojas, a Mexican laborer, attempted to kill C. Chatcone, a countryman, during a fight which started when Chatcone made fun of Rojas because he alleged that the latter's sweetheart had no teeth.

WORLD'S NEWS PRESENTED IN BRIEF ITEMS

Events of Both Hemispheres Compiled in Pithy Form For Busy Readers

Here You Will Find a Resume of Happenings in Almost Every Part of the Earth.

Denver.—The anti-saloon element was beaten in the election by a majority of almost 5000 to 10,000.

New York.—Colonel Theodore Roosevelt has accepted the invitation of the National Roosevelt Rough Riders' Association to be the guest of honor at luncheon to be given in New York June 23.

Chicago.—After denying the women delegates the right to have a woman chairman of the meeting the Socialist congress adopted a resolution incorporating woman suffrage as a part of the platform of Socialism.

Albuquerque, N.M.—Unusually heavy rains in central New Mexico last week were worth thousands of dollars to cattlemen and farmers. The prospects now are that the crop will be the greatest in the history of the territory.

Chicago.—In dissolving an injunction restraining the police from closing the Cort theater, Judge Scanlon held that the musical farce which has been on at the playhouse is immoral. Clubwomen took the initiative in seeking to have the play ousted.

New York.—Alfred de Oro is again the world's three-cushion billiard champion and holder of the Jordan Lambert trophy. In the final block of his match with Thomas A. Hueston, De Oro won, 50 to 38, making the total score for the match 150 to 114.

Canton, O.—Death to 19 men, serious injury to 30 other employees of the plant, and damage to the buildings amounting to many thousands of dollars, these are the results of the explosion of a battery of seven boilers at the American Sheet and Tin Plate Company.

Albany, N. Y.—The Hinman-Green direct nominations bill, advocated by Governor Hughes, failed to pass the Senate by three votes. In the vote that followed on the Grady-Frisbie bill, embodying the Democratic idea of electoral reform, the Republicans voted solidly in the negative.

Peking.—Reports from Nanking, the capital of the province of Kiang-Sa, tell of serious evidences of unrest among the Chinese. The natives are cutting off their queues, an action which constitutes an anti-dynastic demonstration. The anti-foreign feeling is said to be increasing.

Washington.—Liliuokalani, former Queen of Hawaii, has again met defeat in her effort to obtain \$450,000 for the rentals of the crown lands in Hawaii. The Court of Claims has just decided that these lands belonged to the Government of Hawaii, and that the Queen had no personal claim on them.

Washington.—Yielding to the sentiment in Kansas against capital punishment in that State, where a law has been passed against it, President Taft commuted to life imprisonment the death sentence of Private Charles O'Neal of the United States army, who was to have been executed on the military reservation at Fort Leavenworth May 28.

Kansas City.—A general increase in the wages of the motormen and other employees on the Metropolitan Street Railway Company's lines of this city was announced a few days ago. The increase for the motormen and conductors ranges from 12 to 24 cents a day. The scale ranges from 20 cents an hour for the first year to 26 cents an hour after the tenth year of service.

Boise, Idaho.—Locked in a toolbox in the woodshed at their home in south Boise, the bodies of Agnes and Willie Schier, 9 and 4 years old, respectively, were discovered by a little girl of the neighborhood, after a searching party had spent the night in a fruitless search. It is presumed that the children, while at play in the large toolbox, drew down the lid, which was self-locking.

New York.—Peter Anderson, a bright little fellow of eight years, has cleared himself and a six-year-old companion of a larceny charge by explaining to a judge in Jersey City that he caught a roll of bills on a fishhook while angling in the Hackensack river recently. There was \$42 in the roll, which was held together by a rubber band. The boys divided it equally. A boatman who had lost the money had the lads arrested, but the court gave credence to the story of the strange manner in which the money was found.

Loss of Appetite

Which is so common in the spring or upon the return of warm weather, is loss of vitality, vigor or tone, and is often a forerunner of prostrating disease.

It is serious and especially so to people that must keep up and doing or get behindhand.

The best medicine to take for it is the great constitutional remedy

Hood's Sarsaparilla

Which purifies and enriches the blood and builds up the whole system.

Get it today in usual liquid form or chocolate tablets known as Sarsatabs.

The New Flavor

Mapleine

(Flavor of Maple)

A flavoring used the same as lemon or vanilla. By dissolving granulated sugar in water and adding Mapleine, a delicious syrup is made and a syrup better than maple. Mapleine is sold by grocers. If not send 35c for 2 oz. bottle and recipe book.

443 PINE ST., SAN FRANCISCO

A Storekeeper Says:

"A lady came into my store lately and said: 'I have been using a New Perfection Oil Cook-Stove all winter in my apartment. I want one now for my summer home. I think these oil stoves are wonderful. If only women knew what a comfort they are, they would all have one. I spoke about my stove to a lot of my friends, and they were astonished. They thought that there was smell and smoke from an oil stove, and that it heated a room just like any other stove. I told them of my experience, and one after another they got one, and now, not one of them would give hers up for five times its cost.'"

The lady who said this had thought an oil stove was all right for quickly heating milk for a baby, or boiling a kettle of water, or to make coffee quickly in the morning, but she never dreamed of using it for difficult or heavy cooking. Now—she knows.

Do you really appreciate what a New Perfection Oil Cook-Stove means to you? No more coal to carry, no more coming to the dinner table so tired out that you can't eat just light a New Perfection Stove and immediately the heat from an intense blue flame shoots up to the bottom of pot, kettle or oven. But the room isn't heated. There is no smoke, no smell, no outside heat, no drudgery in the kitchen where one of these stoves is used.

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

New Perfection Oil Cook-stove

It has a Cabinet Top with a shelf for keeping plates and food hot. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Every dealer everywhere; if not at yours, write for Descriptive Circular to the nearest agency of the

Proof Positive.

A western newspaper man visited Washington recently and told the following story on former Representative Amos J. Cummings of New York, who was once city editor of the Sun. One Saturday night it was announced that all the saloons were to be closed next day.

Cummings called his star reporter, Murray.

"Tom," he said, "go out to-morrow and find out if the saloons were selling liquor."

It was Thursday when Tom again appeared at the city desk.

"They were," he reported.—Success Magazine.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

An international botanical congress will be held at Brussels in May.

SAVE 1/2 YOUR GAS, KEROSENE OR GASOLINE and keep cool. The Spengler Cooker and Heat Distributor confines the heat of one burner and distributes it to three openings, enabling you to cook three articles or heat four flat irons at the same time over one flame, resulting in great economy and a cool kitchen. It positively prevents burning food and utensils and pays for itself in a short time. Price \$1.75 delivered. Territory for capable agents a big seller. Franklin C. Smith Co., Monadnock Bldg., San Francisco.

The man who buys his friends usually pays more than they are worth.

Most Powerful Searchlight.

The world's most powerful searchlight is now part of the equipment of the Connecticut of the United States navy. The great mirror is five feet in diameter and was made for the government in Germany. The searchlight will throw such a powerful beam of light that it will be able to detect a submarine or torpedo boat at a distance of ten miles.

A Merited Rebuke.

At the age of 86 Madam Reynolds still found much zest in life, and having retained all her faculties, she felt that a few of the physical disabilities of her age were of small account and portended nothing. Her nephew Thomas was a man of much worth, but of a certain tactlessness of speech which always roused the ire of his aunt.

A few weeks before the old lady's eighty-seventh birthday Thomas, who had been overweighed with business cares for years, started on a trip round the world which was to consume two years.

"I've come to say good-by," he announced, when he appeared at his aunt's house, in a town fifty miles distant from his home. "I'm starting round the world next week, and as I'm to be gone two years, and perhaps longer, I thought I might not ever—well, you understand, I wanted to be sure to see you once more."

The old lady leaned forward, fixing him with her bead-like eyes. "Thomas," she said, imperatively, "do you mean to tell me the doctor doesn't think you'll live to get back?"

A Sybarite.

In the gray light of early morning the traveler in Scotland faced the night clerk resolutely. "You gave me the worst bed in the inn!" he began, indignation in his voice and eyes. "If you don't change me before to-night, I shall look up other lodgings."

"There is no difference in the beds, sir," the clerk replied, respectfully. The traveler smiled ironically.

"If that is so," he said, "perhaps you wouldn't mind giving me the room on the left of mine."

"It is occupied, sir."

"I know it is. By a man who snored all night, and was still at it ten minutes ago. His bed must be better than mine, or he couldn't sleep at a maximum capacity of sound eight hours on a stretch."

"The beds are all alike sir. That man has been here before, and he always sleeps on the floor, sir."

A Studied Explanation.

"Will you be able to explain your attitude on the tariff?"
"Yes," answered Senator Sorghum. "I'll have my explanation ready when the time comes. But I'll wait till my constituents are interested in other things and will carefully make it a little hard to understand."—Washington Star.

FOR SALE—Land in Sonoma County. Stock, dairy, fruit and poultry farms, all sizes and prices. No better land, never failing water, no malaria. Call or write. Santa Rosa Realty Co., 636 Market St., San Francisco or Elks Bldg., Santa Rosa, Cal.

For Any Disease or Injury to the eye, use PETTIT'S EYE SALVE, absolutely harmless, acts quickly. All druggists or Howard Bros., Buffalo, N. Y.

A Mother's Troubles.

The mother of a large family fell ill and died, and the attending physician reported that she died of starvation. It was incredible, but he proved it. The woman had to get the dinner and then spend the next two hours in waiting on the family and getting the children to the table. It was never on record that she got all of them there at the same time, and they came straggling in all the way from potatoes to pie. By the time she had wiped the last face her own hunger had left her and she had no desire to eat. Chickens, the doctor said, come running at feed time, but children don't. A hen has a better chance to eat than a mother.—Atchison Globe.

Why He Favored Them.

Friend—Why do you encourage these woman's suffrage meetings? Surely you don't approve of them?
Husband—Approve? With all my heart! I can come home as late as I like now without finding my wife waiting to ask questions.—Kansas City Journal.

To save the inconvenience of operating two 110-volt lamps in series in a 220-volt lighting current, a tungsten lamp of the higher voltage has appeared in the market.

Catch Your City Young.

This is the advice of Franklin Clark, writing in Success Magazine. Three or four Iowans settled on a sandy beach in Texas to experiment with a city without taxes. As others joined them, the settlement formed a legal corporation—quite as the ancient Romans in Britain did—for the purpose of regulating domestic policy and administering powers of government; and as a means of checking up government by public opinion, the initiative and referendum was instituted.

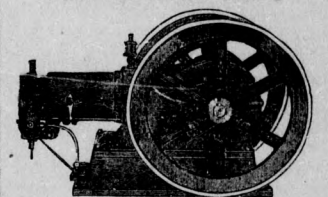

After fourteen years Fairhope is thriving happily. Land is owned by the corporation, which is the community, and is leased to individuals for ninety-nine years. When one has paid into the communal treasury the annual ground rent of, say, \$25 for his leasehold, \$50 down for installing a telephone (if he wants one)—that is all the government exacts.

And in return for it there are three free schools; a water system without rates; a public dock; a library that is free without a Carnegie foundation; a telephone system with absolutely no charges within the county.

All these were established out of the surplus from ground rent, after paying the State and county taxes, and the cost of administration and improvements.

You see, according to this, there would be really nothing supernatural or miraculous about dividend-paying cities. Only an extreme sort of practicality. The main desideratum would seem to be that you must catch your city young, and thereafter protect it from private exploitation.

ENGINES FOR ALL PURPOSES

Engines today are taking the place of the horse and of all forms of manual labor. Dependability—the certainty that it will work when you need it, is the first requisite of an engine. Then reliability of workmanship, obviating repairs.

The Old engines, of which we are the agents, are made by the oldest and most reliable firm in the United States.

Entered as second-class matter September 30, 1904, at the Postoffice at Campbell, California, under the Act of Congress of March 3, 1879.

There was a double eclipse last Monday evening. The earth eclipsed the moon, and the clouds eclipsed the eclipse.

Next Monday is Memorial day. May we all observe the day in a way that will show proper regard for those who sacrificed so much for the flag we love.

A general sigh of relief is experienced throughout the community when such men as Chiffen are put safely behind the bars without the usual long, expensive trial.

Many people who had counted on seeing the comet in the evening were disappointed as the wanderer had gotten so far away and was otherwise obscured by the clouds. Remember the old adage of the early bird and the worm.

The National Association for the Study and Prevention of Tuberculosis says it will take 45 years at the present rate to care for all consumptives in this country. As yet, not one state in the country has made adequate provision for its consumptives. New York has set itself the task of having "No uncare-for Tuberculosis in 1915," and several cities in other parts of the country have adopted similar programs. The National Association says that tuberculosis will not be stamped out until all cases of this disease are cared for either in their homes or in institutions. With this end in view, efforts will be made to increase the number of hospital beds in this country to at least 35,000 by May 1, 1911.

The Los Gatos election contest between R. P. Doolan and F. M. Derrickson was settled by Acting Judge Coolidge Tuesday afternoon in favor of Mr. Doolan. At the town election in April the two candidates received a tie vote but in the court decision Mr. Doolan was granted a majority of five votes, which makes him a member of the board for the next four years. The result of this will be a more liberal policy of government for the next two years at least. The Gem City has prospered under the former administration and it was feared that the election of Mr. Doolan might mean a change in policy that would not be for the best interests of the town. There is no question about the ability of Mr. Doolan, as it has been demonstrated that he is a good booster.

When interviewed by a Mercury reporter this week Mr. Doolan said: "In my declaration of principles I pledged myself as opposed to prohibition and in favor of granting permits (not licenses) to bona fide hotels and restaurants to serve wines and liquors with orders of meals. These privileges to be governed by such restrictions as the Board might determine. Permission will be granted which will be revocable at any time for an infraction of the ordinance under which it is given. I positively declare that the new administration will grant no saloon or bar licenses. I intend to repeal the unjust restriction in the present so-called prohibition ordinance that forbids householders from having wines or liquors delivered at their residences for the use of their families or their guests.

"I favor the upbuilding of the city of Los Gatos and will hasten its material advancement along all proper lines, paying especial attention to the construction of new sidewalks and sewers. Besides these things, you may say that the administration will put forth its best efforts to establish a tax rate that will afford a material reduction of the present rates."

That surely sounds good. If the new board operates along these lines the town cannot help but continue to go forward.

"California for the Settler"
The latest addition of the Southern Pacific to its extensive literature on California is a booklet called "California for the Settler." It is not a bit of "boom" literature, but has in mind the man who "wants to know" what natural advantages the Golden State has to offer for the present day farmer. The book contains nearly a hundred pages and has a handsome colored cover. On the inside each left hand page is a full halftone photograph of some one of the state's varied industries or beauty spots. The right hand page is devoted to descriptive matter, which is divided into three parts, viz.: The New California, The Climate of California, and California Land Values. The work embraces the entire state, and is presented in such a practical manner that its pages cannot but instill a desire in the minds of our Eastern friends to come and see for themselves the opportunities afforded by this great state.

These books are for distribution on direct application to the Advertising Department of the Southern Pacific at San Francisco.

Stanford Professor Sees Hope and Menace in Cross-Street Expectoration
That the profuse expectoration on street crossings is a sign of progress as well as a menace to public health is the opinion of Prof. R. R. Long, acting head of the Stanford University Department of Hygiene.

Discussing this theme Prof. Long says: "A friend of mine who studies the ways of street spitters first called my attention to the fact that the expectoration on street crossings is always much more profuse than on the sidewalks. This is noticeable even in cities where there is practically no enforcement of expectoration laws, which indicates that people of their own accord are coming to wait until they get to the street before they expectorate. So far as the public health is concerned it is just about as dangerous to spit on the street crossing as it is to spit on the sidewalk, but the public will not be able to appreciate this until it is brought to their attention by better framed ordinances and the attending newspaper comment. Ordinances should definitely state that expectoration on street crossings is a violation of law.

"Dampness and shade favor the longevity of germs that are commonly expectorated, such as those of tuberculosis, pneumonia, la grippe, etc. Especially in rainy weather the care free lad who shuffles cheerfully across a number of sloppy, spittle-befouled crossings on his way home from school becomes a disease carrying possibility. Thus the foot prints which boys sometimes leave on mother's carpets may contain material that has been recently expectorated by diseased persons.

"The custom of our women in wearing skirts that approach the ground makes it doubly incumbent on mankind to prevent expectoration on street crossings. Even with the aid of a policeman it is often impossible for the conventionally attired woman to conduct a parcel or two, a modern hat and a modern gown across a street without some of the contaminated crossing-slime being added to her burden.

"In the thirteen years since Alameda drafted the first California anti-expectoration law there has been much improvement in the conditions which provoked this attack. But it is probable that the editorial pen has had more to do with the bringing about of this improvement than has the club of the policeman. It is to be hoped that both agencies will work busily on until spitting on sidewalks or street crossings become as unpopular as spitting on the floor."

The Longer One Attends School the Less He Knows

The Ventura Free Press, commenting on the movement to put some useful subjects into the High School curriculum, says:

"Fewer and fewer boys were finishing in high schools. They saw the utter uselessness of it all, since the professions were being over-crowded, even if they could afford a university course to fit themselves for professional life. With the high school our whole school system has led away from the farm—the very backbone of the country—until the land has awakened to the fact that we were throwing a lot of unfitted young men and women on the world. A high school finish meant little more than a smattering of the useless things in general life and among the boys a wider knowledge of athletics. But there is a promise of a change for the better. It has been felt for some time that something was necessary to be done and schools here and there have added the commercial course and manual training and domestic science and some of them have even ventured into agricultural experiments. These have all helped to the desired end. It may now become general and it cannot become so too soon to benefit the youth of the land. Therefore it has been considered that a boy or girl was more fitted to battle with the world on the grammar school course, than after a four years additional course in the high schools. The longer they attended school, in other words, the less they knew of the practical things of life, but with the new order of things this will be different."

Distribution of Public School Money

The second and last apportionment of public school money for the year ending June 30th has been made, based on the census of April, 1909. Schools in this vicinity will get sums as follows: Austin, \$89.60; Booker, \$89.60; Burrell, \$72.80; Cambrian, \$264.20; Campbell, \$784; Guadalupe, \$100.80; Lakeside, \$84; Lexington, \$145.60; Los Gatos, \$2010.40; Montezuma, \$28; San Tomas, \$100.80; Saratoga, \$453.60; Summit, \$28; Union, \$246.40.

An Ideal Husband

is patient, even with a nagging wife, for he knows she needs help. She may be so nervous and run-down in health that trifles annoy her. If she is melancholy, excitable, troubled with loss of appetite, headache, sleeplessness, constipation or fainting and dizzy spells, she needs Electric Bitters—the most wonderful remedy for ailing women. Thousands of sufferers from female troubles, nervous troubles, backache and weak kidneys have used them and become healthy and happy. Try them. Only 50c. Satisfaction guaranteed by all Druggists.

Campbell Churches
Methodist Episcopal—Class Meeting at 10 a. m. Preaching, 11 a. m., and 7:30 p. m. Sunday school, 12:15. Epworth League, 6:30. Prayer Meeting, Wednesday 7:30 p. m.
JOHN F. WILSON, Pastor.
Congregational—Preaching, 11 a. m., 7:30 p. m. Sunday school, 12:15. Christian Endeavor, 6:30 p. m. Mid-week service, Wednesday at 7:30 p. m. Woman's Guild meetings, second and fourth Thursdays of the month. Woman's Missionary meeting, first Monday.
If you have no definite church home you are cordially invited to worship with us and make this your church home. You will help us; let us help you. You will find our meetings bright, brief and brotherly. A cordial invitation to all.
GEO. E. ATKINSON, Pastor

If you were Buying Eyes?
Would you buy the best or the cheapest?
You should follow the same rule in buying glasses.

The "Ladies' Home Journal" calls cheap glasses, "Ten Cents Worth of Trouble."
A few dollars spent for glasses when they are first needed often prevents results too terrible to even think about.

My motto:
Glasses, Right—Just, Right.

NOTICE TO TAXPAYERS
The law requires each and every person who owns any class of property to annually, during the month of March, April or May, file a statement with the Assessor or his deputy in the county where the property is located. You should give a statement of all property owned by you on the FIRST MONDAY IN MARCH AT 12 O'CLOCK M.
If you hold mortgages or trust deeds against others, send in mortgage statement early in March; so proper deductions can be made showing amount due on each mortgage or trust deed on the first Monday of March at 12 o'clock m.
Remember, if you fail to give in your assessment you will be liable to the law and may cause yourself, the Assessor and Tax Collector much trouble, and very likely cause yourself expense.
Poll Tax is now due and payable at the Assessor's office or to a deputy. After the FIRST MONDAY IN JULY it will be added.
It is much more satisfactory to the Assessor, as well as to yourself, to have your assessment correct when you go to pay your taxes.
L. A. SPITZER, Assessor.
